

Industrial Electrolysis Machine Operation Reports

Machine No. : GA-3001

Machine : No. 1

Date: April 23,2015

Place: I-Lan,Taiwan

Feed Water : Mineral Water

Ph : 7.07

Conductivity : 182.5

Time	PH	conductivity	Electrolysis Step	Remarks

Explanations

- 1, The electrolysis result is very excellent and the pH of alkaline ionized water is very stable.
2. the different of pH value is 0.19.
